

POLIFILM

CLEAR CUT GLASS PROTECTION FILMS

IMMEDIATE COVERAGE. ASSURED PROTECTION.

IDEAL FOR RENOVATION AND FAÇADE WORKS.

Protect glass surfaces from damage and dirt during painting, plastering and façade work with more reliability than ever before; whether inside or outside, rest assured with protective films from POLIFILM PROTECTION.

 **Easy to use.**

Immediate protection guaranteed. The self-adhesive protective films are applied by hand in seconds. Available in a wide variety of hand held sizes, maximum flexibility is assured every time.

 **Uncompromised protection.**

Glass protection films from POLIFILM PROTECTION withstand any mechanical stress and reliably protect the surface from paint, thinners, oil or water. They have excellent adhesive properties and will not peel off during use.

 **Simply removed.**

Glass protection films from POLIFILM PROTECTION are easily and safely removed without any tearing or adhesive residues remaining on the glass surface.

EXCELLENCE IN FILMS

AT A GLANCE GLASS PROTECTION FILMS
